Dear Chairman Hatch, Chairman Johnson, Chairman Ryan, Senator Flake, and Senator Manchin:

The undersigned members of the Consortium for Citizens with Disabilities (CCD), joined by the Coalition on Human Needs and **[national organizations and/or coalitions]**, write to express our opposition to proposals to eliminate or reduce concurrent Social Security Disability Insurance (SSDI) and Unemployment Insurance (UI) benefits, including the “Social Security Disability Insurance and Unemployment Benefits Double Dip Elimination Act of 2015” (S. 499; H.R. 918) and the “Reducing Overlapping Payments Act of 2015” (S. 343).

SSDI and UI are vital insurance systems established for different purposes. Receiving UI and SSDI concurrently is legal and appropriate. This has been the long-standing position of the Social Security Administration and of the courts. Individuals qualify for SSDI because they have significant disabilities that prevent work at or above Social Security’s Substantial Gainful Activity level (earnings of \$1,090 per month, in 2015). At the same time, the Social Security Act encourages SSDI beneficiaries to attempt to

work, and those who have done so at a low level of earnings but have lost their job through no fault of their own may qualify for UI. As highlighted in a 2012 Government Accountability Office report, less than one percent of individuals served by SSDI and UI receive concurrent benefits, and the average quarterly concurrent benefit in fiscal year 2010 totaled only about \$3,300 (or an average of \$1,100 per month).

These extremely modest benefits can be a lifeline to workers with disabilities who receive them, and their families – and as permitted by law are neither “double-dipping” nor improper payments. We are deeply concerned by any prospect of worsening the economic security of workers with disabilities and their families.

In addition, proposed cuts to concurrent benefits single out SSDI beneficiaries with disabilities, treating them differently from other workers under the UI program.

Finally, proposed cuts to concurrent benefits create new disincentives to work for SSDI beneficiaries, by penalizing individuals who qualify for both SSDI and UI because they have attempted to work, as encouraged by law. The creation of a new work disincentive runs directly counter to our shared goal of expanding employment opportunities for people with disabilities.

For these reasons, the undersigned members of CCD strongly oppose the “Social Security Disability Insurance and Unemployment Benefits Double Dip Elimination Act of 2015” and the “Reducing Overlapping Payments Act of 2015.” We urge Congress to reject these bills and any similar legislation.

Sincerely,

CC:
